The **Community Bridges Family Support Council** invites you to a *free* screening of "The Kids We Lose" hosted at Red River Theatre on September 26 & September 28th.

"The Kids We Lose" is a 90 minute award winning film documenting the human side of having a child who experiences social, emotional and behavioral challenges and the struggle to provide appropriate support across the nation.

The film explores the current response and alternative methods of addressing the needs of these students and how to support them in having success in school and in life.

Representatives from various organizations will be on hand before the film to discuss how their organization supports individuals who struggle with similar challenges.

Each screening will be followed by an open discussion with professionals to explore ongoing challenges and how to move forward in a positive manner for the benefit of all children in our communities.

*Due to the emotional nature of this topic and the depiction of difficult real life events, we recommend watching the preview before registering.*
